

## College & Career Readiness

Dr. John B. King, Jr.

President of the University of the State of New York and Commissioner of Education

October 1, 2013

## **Graduating College and Career Ready - Statewide**

New York's 4-year high school graduation rate is 74% for All Students. However, the percent graduating college and career ready is significantly lower.

#### **June 2012 Graduation Rate**

#### **Graduation under Current Requirements**

	% Graduating
All Students	74.0
American Indian	58.5
Asian/Pacific Islander	81.6
Black	58.1
Hispanic	57.8
White	85.7
English Language Learners	34.3
Students with Disabilities	44.7

#### Calculated College and Career Ready\*

	% Graduating		
All Students	35.3		
American Indian	18.8		
Asian/Pacific Islander	56.5		
Black	12.5		
Hispanic	15.7		
White	48.5		
English Language Learner	rs 7.3		
Students with Disabilities	4.9		

<sup>\*</sup>Students graduating with at least a score of 75 on Regents English and 80 on a Math Regents, which correlates with success in first-year college courses.

#### Graduating College and Career Ready –

Onondaga, Oswego, Madison, Cortland, and Cayuga Counties

The 4-year high school graduation rate in the Syracuse area is 77% for All Students. However, the percent graduating college and career ready is significantly lower.

#### **June 2012 Graduation Rate**

77.3

#### **Graduation under Current Requirements**

### % Graduating

#### All Students (CNY Region)\*\* American Indian 56.9 67.5 Asian/Pacific Islander

53.3 Black

Hispanic 55.1

White 81.9

20.2 **English Language Learners** 

Students with Disabilities 48.3

#### Calculated College and Career Ready\*

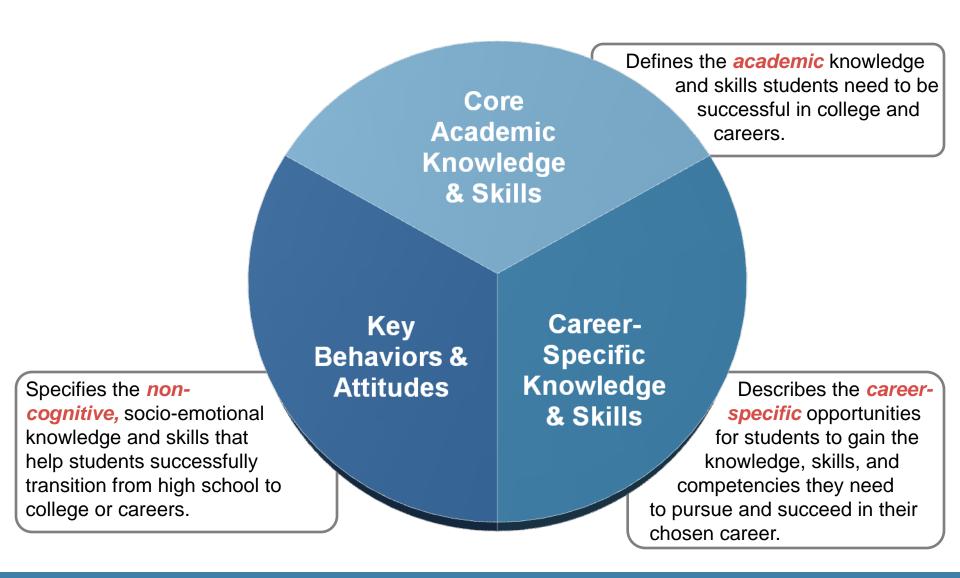

——————————————————————————————————————			
% Graduatin			
All Students (CNY Region	<b>)</b> ** 39.2		
American Indian	19.6		
Asian/Pacific Islander	40.4		
Black	7.1		
Hispanic	15.8		
White	44.7		
English Language Learners	2.2		
Students with Disabilities	5.1		

<sup>\*</sup>Students graduating with at least a score of 75 on Regents English and 80 on a Math Regents, which correlates with success in firstyear college courses.

Source: NYSED Office of Information and Reporting Services

<sup>\*\*</sup>In this instance, defined as Onondaga, Oswego, Madison, Cortland and Cavuga Counties

### **Domains of College and Career Readiness**

## Converging Evidence about College Readiness

## College and Career Readiness

Whether the measure is national or New York-specific, at the elementary/middle or secondary level, there is converging evidence about student preparedness for college and careers.

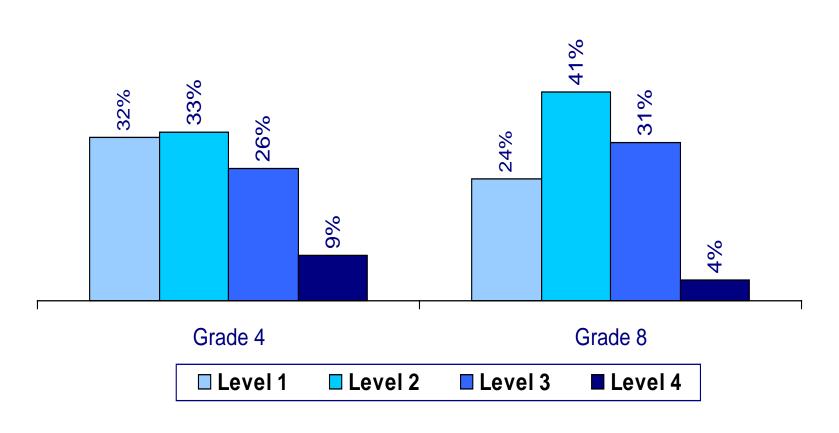

## NAEP & College Readiness

- New studies on a 12<sup>th</sup> grade NAEP assessment, administered in 2009, suggest NAEP proficiency predicts 'college preparedness.'
- Nationally, in 2009:
  - 38 percent of 12th graders scored at or above proficient in reading
  - 26 percent reached proficiency in math

"When college and career readiness is on everyone's lips, ... lo and behold, the pretty-clear conclusion reached is NAEP 'proficient' comes pretty darn close to college preparedness"

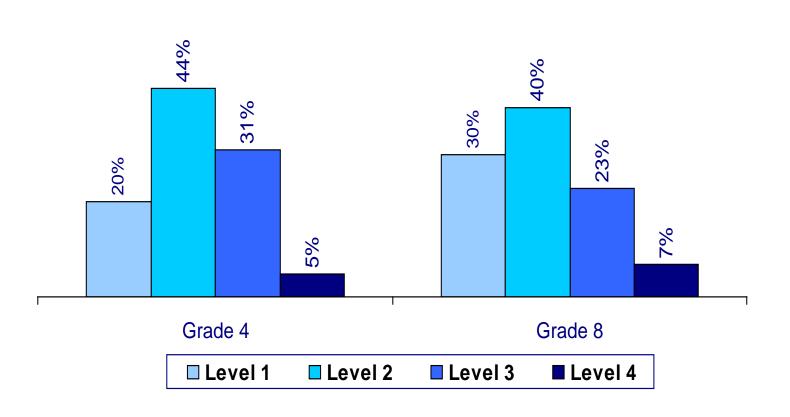

~ Chester Finn, Former Chair, National Assessment Governing Board; Current President, Thomas B. Fordham Institute

## New York 2011 NAEP Reading Grades 4 and 8

### **New York 2011 NAEP Math**

#### Grades 4 and 8

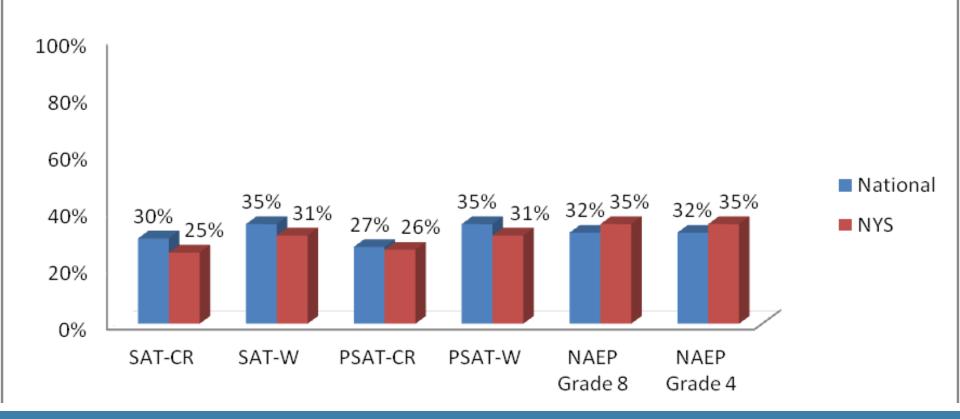

### SAT and PSAT Benchmarks for New York Students

- College Board and NAEP study determined scores on SAT and PSAT/NMSQT that correspond with college readiness for the nation.
- Criteria were adapted slightly to accommodate New York students' course-taking patterns.
- The results for all New York students who graduated in 2010 and who took the SAT and PSAT/NMSQT are on the following slide.

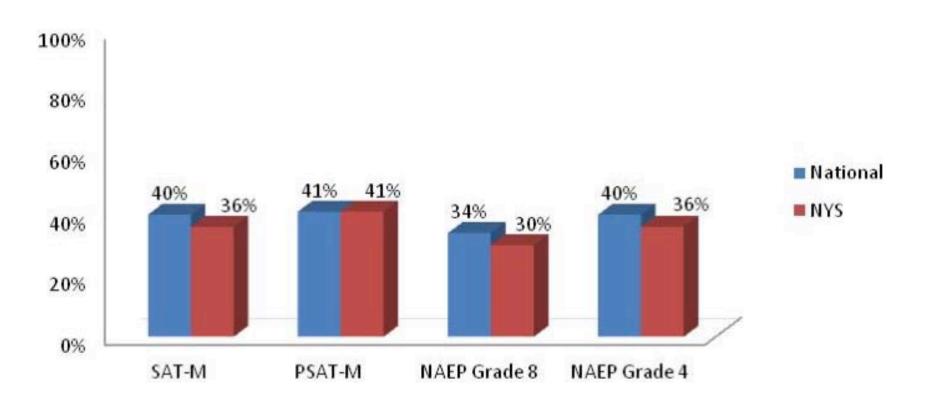

## SAT and PSAT/NMSQT CCR Benchmark Data: ELA

#### Percent of Students at or above ELA External Benchmarks

## SAT and PSAT/NMSQT CCR Benchmark Data: Math

Percent of Students at or above Math External Benchmarks

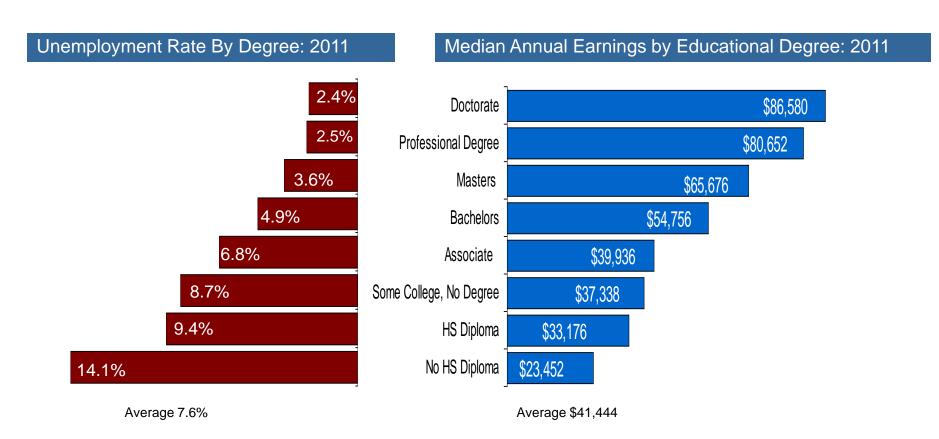

## Why Readiness Matters – Labor Market Is More Demanding

A post-secondary education is the "Passport to the American Dream"

- Of the projected 47 million job openings between 2009-2018, nearly two-thirds will require workers to have at least some post-secondary education – and experts say this percentage will only increase.
- 14 million job openings will go to people with an associate's degree or occupational certificate and pay a significant premium over many jobs open to those with just a high school degree.

Sources: Pathways to Prosperity Project, Harvard University, February 2011; Georgetown Center on Education and the Workforce, Help Wanted: Projections of Jobs and Education Requirements Through 2018, June 2010.

## Why Readiness Matters – Earnings and Unemployment

Education pays in higher overall earnings and lower unemployment rates.

## Why Readiness Matters – Underperformance Costs \$1 Trillion

- America's urban school districts underperform compared with their suburban counterparts.
- America's suburban school districts underperform compared with their international counterparts.
- If American students performed at the same level in math as Canadian students, we would add \$1 trillion annually to the economy.

## Why Readiness Matters – Talent Dividend

 If New York increased its college attainment rate by just one percent – from 33.8 to 34.8 percent – the state would capture a \$17.5 billion Talent Dividend.

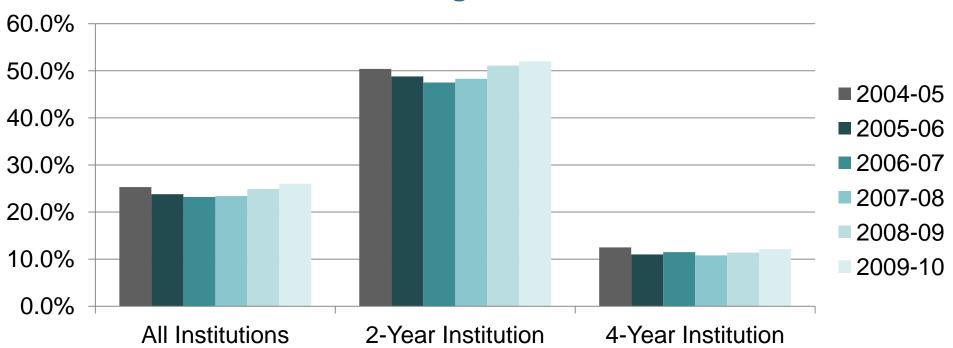

Source: CEOs for Cities

## Why Readiness Matters – College Remediation in NYS

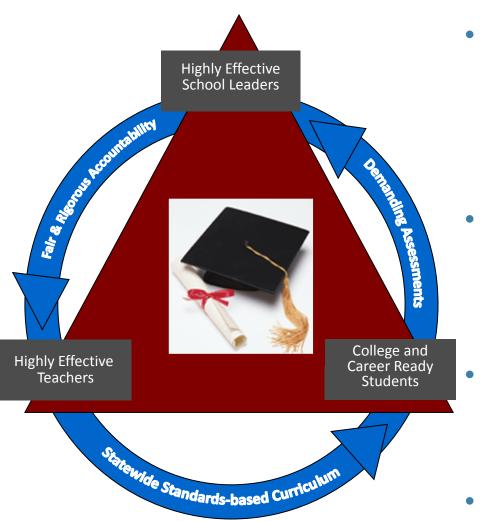

Over 50% of students in NYS two-year institutions of higher education take at least one remedial course.

## Remediation Rates for First-time, Full-time Undergraduates

Source: NYSED Administrative Data for all Public, Independent and Proprietary 2- and 4-year institutions of higher education

## Regents Reform Agenda

- Implementing Common Core standards and developing curriculum and assessments aligned to these standards to prepare students for success in college and the workplace.
- Building instructional data systems
   that measure student success and inform
   teacher and principals how they can
   improve their practice in real time.
- Recruiting, developing, retaining, and rewarding effective teachers and principals.
- Turning around the lowest-achieving schools.

#### What is the Common Core?

- The development of the Common Core was a nationwide, state-led effort to establish a shared set of clear educational standards.
  - 45 states and the District of Columbia have adopted the Common Core
- The Common Core Standards are the first learning standards to be *backmapped* from the skills and knowledge students need to succeed in college and careers, grade-by-grade all the way back to kindergarten.
- The Common Core Standards are benchmarked to international standards and informed by the best evidence and research.

#### Common Core in New York

- 2010: Board of Regents adopts Common Core
- **2013:** Common Core Assessments in Grades 3-8 and math are administered
- 2014: Roll-out of Common Core Regents Exams begins
  - June 2014: ELA and Algebra I
  - June 2015: Geometry
  - June 2016: Algebra II

Class of 2017: First cohort of high school graduates required to pass Common Core Regents Exams for graduation.

Transition to New York Common Core Assessments is a seven-year phase in.

# Aligning Curriculum, Instruction, and Assessments to the Common Core

 Common Core curriculum, instruction, and assessments are rigorous and focus on priority knowledge and skills to ensure College and Career Readiness.

#### 6 Shifts in ELA/Literacy

Read as much non-fiction as fiction
Learn about the world by reading
Read more challenging material closely
Discuss reading using evidence
Write non-fiction using evidence
Increase academic vocabulary

#### 6 Shifts in Mathematics

Focus: immersion in important topics
Build skills across grades
Develop fluency and accuracy
Really know it, Really do it
Use it in the real world
Efficiently solve complex problems

### **Curricular Resources**

- Professional Development Videos developed with authors of Common Core and PBS
- Tri-State Rubric developed with Massachusetts and Rhode Island to evaluate district curricular materials against the Common Core
- Curricular Exemplars (sample lessons and instructional materials) developed with feedback from the authors of Common Core
- Sample Assessment Items developed with feedback from the authors of Common Core

### **Curriculum Modules**

- Comprehensive, optional, free
- High-quality, rigorous, deeply aligned to the Common Core
- Includes performance tasks and other assessments which measure student growth – daily, weekly, at the end of each unit/module
- Ensures diversity of voices and perspectives in text selection
- Contains notes for teachers, templates, handouts, homework, problem sets, overviews
- Innovative creative commons license approach

## Myths about the Common Core

Myth	Reality
The Common Core are national standards being imposed by Washington.	The Common Core began as a collaborative effort of the National Governors Association and the Council of Chief State School Officers. Teachers, parents, school administrators and experts from across the country together with state leaders provided input into the development of the standards.
The Common Core are too challenging and rigorous.	We have an obligation to prepare students for success in college and careers in the 21 <sup>st</sup> Century global economy. We need to challenge students and provide feedback on progress beginning in the early grades, while there is still time to intervene.
The Common Core were rushed and districts and teachers were unprepared for implementation.	The Board of Regents first adopted the Common Core in 2010. Educators throughout the state have worked hard to prepare teachers and students for the new standards, and they are rising to the challenge.

### Teachers, Students, and Parents Need Clear Expectations and Measures of Progress

- The assessment program is a key tool to support improved teaching and learning
  - Key measure of how students are doing on NYS Learning Standards
  - Critical component of the State's accountability system
  - Contribute to our evaluation of teacher and principal effectiveness
- The assessment program helps us demonstrate to parents that their children are meeting rigorous expectations as they progress through our education system.
  - The assessment program provides a continuous feedback loop to parents and educators so they can better support student learning.

## **Testing Under NCLB**

- The federal No Child Left Behind (NCLB) Act requires, among other measures, administration of the following assessments:
  - Grades 3-8 English Language Arts (ELA) & Mathematics exams
  - o At least one Science exam in Grades 3-5, 6-9, and 10-12
  - At least one High School ELA and Mathematics exam
- The Grades 3-8 ELA and Mathematics, Grades 4 and 8 Science, and High School English and Mathematics assessments were used by New York, together with graduation rates, to hold schools and districts accountable for student results.
  - Schools and districts were identified as being in Good Standing, In Need of Improvement, Corrective Action, or Restructuring based upon whether they achieved Adequate Yearly Progress (AYP) on assessments.

#### **ESEA Waiver**

- The Department's ESEA Waiver was accepted by USED in May 2012.
- Key components of the Waiver include:
  - Implementation of College and Career Ready Standards;
  - Teacher and principal evaluations that incorporate measures of student growth;
  - Use of growth in addition to absolute performance to make accountability decisions; and
  - Designation of the highest-performing schools in the state as Reward Schools.

### **Testing Schedule – ELA**

	2012			2013	
English Language Arts		English Language Arts			
Grades	Estimated Time for Completion*	Time Scheduled	Grades	Estimated Time for Completion*	Time Scheduled
3-5	70, 60, 45 minutes	90, 90, 90 minutes	3-4	50, 50, 50 minutes	70, 70, 70 minutes
6-8	70, 60, 50 minutes	90, 90, 90 minutes	5-8	70, 70, 50 minutes	90, 90, 90 minutes

The Department has designed testing times to allow students sufficient time to demonstrate what they have learned. This brought New York closer to the schedules issued by other highly-regarded assessment systems which ask schools to schedule longer blocks than the expected testing time.

### **Testing Schedule - Mathematics**

2012		2013			
Mathematics		Mathematics			
Grades	Estimated Time for Completion	Time Scheduled	Grades	Estimated Time for Completion	Time Scheduled
3	60, 60, 50 minutes	90, 90, 90 minutes	3	50, 50, 50 minutes	70, 70, 70 minutes
4-8	60, 60, 60 minutes	90, 90, 90 minutes	4	50, 50, 70 minutes	70, 70, 90 minutes
			5-8	50, 50, 70 minutes	90, 90, 90 minutes

The Department has designed testing times to allow students sufficient time to demonstrate what they have learned. This brought New York closer to the schedules issued by other highly-regarded assessment systems which ask schools to schedule longer blocks than the expected testing time.

Note: Estimated Time for Completion and Time Scheduled per book.

### **Common Core Assessment Development**

#### **Every** item:

- Designed from scratch to measure Common Core
- Field-tested
- Reviewed multiple times in development cycle by multiple New York State Certified Teachers
- Meets industry best practice for item quality, fairness and accessibility
- Meets rigorous criteria developed by NYSED

Processes and quality assured by HumRRO, a thirdparty evaluator also used for the NAEP.

### Independent Review

- In order to better ensure the quality of our assessments, the Department asked HumRRO to conduct a number of independent analyses to review and improve the quality of test questions and scores.
- The study's overall conclusion is that the processes used by our contractor to develop and review items are thorough and fully meet or exceed industry standards.

## Just as New York Educators are Essential to Test Development...

#### New York educators are represented on the following panels:

- New York State Content Advisory Panels
  - Spans early childhood and P12 through CUNY, SUNY and clcu faculty
- Item Development, Item Review, Final Form Review

#### These panels are informing:

- College and Career Ready Determinations
- Test specifications, policies, and items
- Policy-level and grade-level performance level descriptions

## ...New York Educators are Essential to Setting Standards

- 95 New York educators for Days 1 to 4
- 34 stayed for Day 5
- Variety of educators nominated and represented:
  - K-12 ELA and Math Teachers
  - BOCES
  - ELL and SwD specialists
  - Higher Education
  - K-12 Administration
- Panelists represented New York's geographic and demographic diversity

## Setting Performance Standards for Common Core Assessments

**Common Core Standards / CCR** 

Research-based Methodology

NY Educator Judgment

Cut Scores

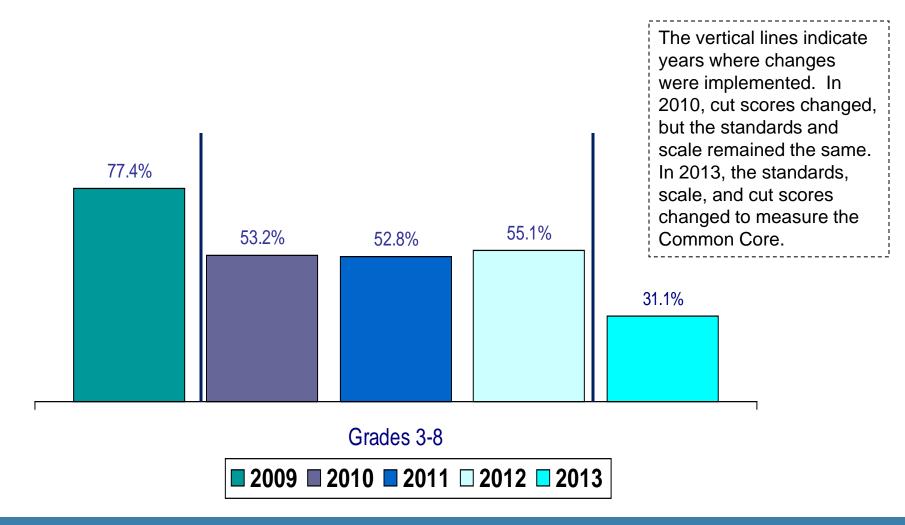

Standard Setting Determination

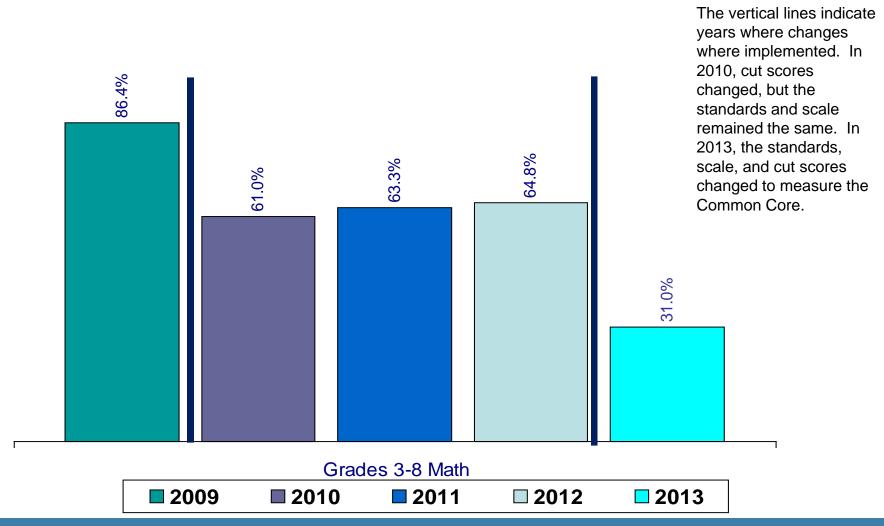

#### A New Baseline

- This year's grades 3-8 ELA and math proficiency percentages should not be compared directly with prior-year results.
  - Unlike prior years, proficiency is now based on the Common Core – a more demanding set of knowledge and skills necessary for 21<sup>st</sup> century college and careers.
- These results present a new and transparent baseline from which we can measure student progress and preparedness for college and careers.
- School and district leaders are urged to be thoughtful to ensure these proficiency results have no negative impact on students, schools, districts, or teachers.
- No new districts will be identified as Focus Districts and no new schools will be identified as Priority Schools based on 2012-13 assessment results.

In <u>ELA</u>, 31.1% of students in grades 3-8 across the State met or exceeded the proficiency standard (NYS Levels 3 or 4), reflecting a new baseline relative to the Common Core Standards

In <u>math</u>, 31.0% of grades 3-8 students across the State met or exceeded the proficiency standard (NYS Levels 3 or 4) in math, reflecting a new baseline relative to the Common Core Standards

# Materials to Support Score Interpretation and Use

#### Released Annotated Items

 Select Items from 2013 Tests with annotations

#### Performance Level Descriptions

 Descriptions of the knowledge and skills required for each performance level

### Appropriate Use of Test Score Data

 Suggested analysis of test score data to further interpret student performance

### Annotated Score Report

 Annotated score report to help parents and students interpret scores

#### Also...

- Key background information for principals and teachers to share when talking with families and the community about the results
- Letter to Parents and Families about the 2013 scores as a new baseline
- Resources for Parents and Families (including materials for workshop on Common Core)

#### **Assessment Resources on EngageNY.org**

- Test Guides
  - One for each grade and subject
- Sample Questions
  - Annotated for educator use in classroom
- Assessment design criteria
  - Passage-selection criteria
  - Design criteria for Common Core questions

New York State has never been more transparent about what content and skills are measured on our assessments... and how they are measured.

EngageNY.org

### **Common Core Regents Exams**

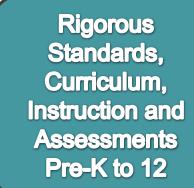

NY Graduates are College and Career Ready NY HS Grads Have Skills To Enroll in and Pass Creditbearing Courses in 1st Semester and/or Embark on Careers

### Myths about Assessments

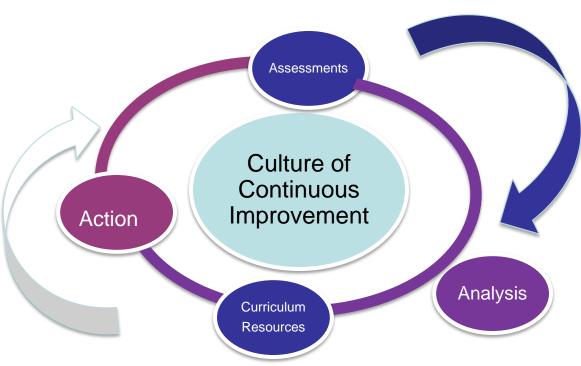

Myth	Reality
The new assessments have led to "teaching to the test."	To the extent that there has been any teaching to the test, it has been against the guidance of the Department, which has advised districts against rote test prep practices.
Tests do not contribute to instruction.	When results are properly analyzed and applied, they can be one of multiple measures to help teachers provide tailored supports and instruction.
We have more tests than ever before.	Much of the assessment program is mandated by NCLB and has been in place for many years. There may have been additional assessments negotiated locally as part of the implementation of evaluation systems.

# Partnership for Assessment of Readiness for College and Careers (PARCC)

- Technology readiness is a challenge, but schools are already making investments in technology to support instructional goals.
- PARCC will offer a computer-based, innovative assessment system to measure student performance on the Common Core standards.
- The assessments will provide data to inform instruction, interventions, and professional development.
- The assessments will determine whether students are on track to college and career readiness in math and ELA/Literacy.
- PARCC adoption is dependent on Board of Regents approval.

# **Educational Technology**That Supports Teaching and Learning

# Educational Technology - Guiding Questions

- Can educational technology tools help support teaching and student learning?
- Can we invest in a system that provides districts and schools with more educational technology options at lower costs and allows them to improve the system to meet local needs?
- How do we improve data security and privacy protocols when districts, schools and BOCES/RICs contract with third party educational technology vendors?

#### **Current and Past Practices**

- Data systems support our core mission to provide high quality education services.
- Consistent with FERPA, New York has a statewide student database in place and provides this information to third parties as necessary to meet its program evaluation and improvement responsibilities (e.g., school report cards)
- Consistent with FERPA, districts and schools provide data to third parties to meet their instructional and organizational responsibilities
  - Student enrollment, schedules, report cards, transcripts
  - Special education services
  - School lunch and transportation
  - Online learning and formative assessment

# Goals of the EngageNY Portal (ENYP):

- Secure and private data tools for educators, students, and families
- Easy access to Common Core curriculum and instruction resources (EngageNY.org)
- Online communities for educators
- Ability for LEA's, BOCES, NYSED, or third-parties to more effectively improve and add to the system following initial State investments

### **Data Privacy and Security**

- Improving data security and privacy is a primary goal
- The biggest risks to data security and privacy include: unattended paper records, unattended computers, weak passwords, data sent via plain text email, etc.
- Local and State data stored through inBloom receive double protection – intrusion protection (firewall) and encryption protection
- ENYP will leverage statewide security protocols to ensure only the right people view the right data

### **Data Privacy and Security**

- As is currently the case, states/districts retain ownership of all data
- As is currently the case, data are never redisclosed to a third-party, including vendors, without state/district approval
- As is currently the case, data will be receive all federal and state security protections, including FERPA
- As is currently the case, data are separate from other states and districts (no national database)

#### **inBloom**

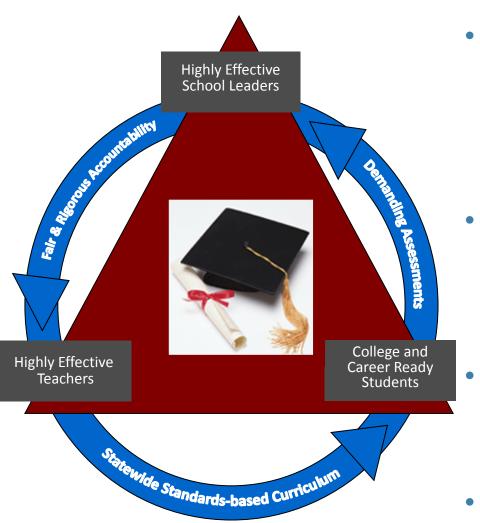

- inBloom is a non-profit provider of open, nonproprietary, and standardized services to support data security, storage, access, and transport
- Without a service like inBloom's, security protocols vary, and districts pay twice for educational technology tools – once for the tool and once to make the tool work with local district systems
- inBloom services allow tools to be built to standard (will work "out of the box"), increasing security, options and lowering costs
- Because all is open and non-proprietary, inBloom could be replaced with different service providers in the future

# Myths about Education Technology Supports

Myth	Reality
My student's data is being sold to private companies.	School districts routinely contract with private vendors for data supports critical to the districts mission, consistent with FERPA.* These data are not sold to private companies. Districts are required to have notification and opt-in/out policies if data are to be shared for non-mission critical purposes.
Social security numbers are collected.	The Department does not – and does not intend to – collect social security numbers.
Confidential records will be disclosed and it will prevent my child from getting into college or getting a job.	Student or parent consent is required for the transfer of transcript data. Electronic transfer of authorized transcript data holds the potential to help facilitate the college admissions process for students and families.

<sup>\*</sup>The Family Educational Rights and Privacy Act is a federal law that protects the privacy of student education records. FERPA allows schools to disclose records without consent under certain conditions, including but not limited to, school officials with legitimate educational interest.

### Regents Reform Agenda

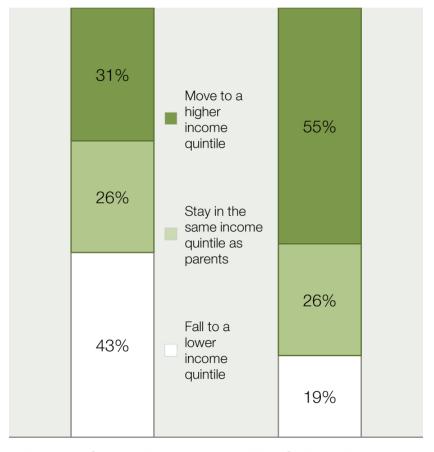

- Implementing Common Core standards and developing curriculum and assessments aligned to these standards to prepare students for success in college and the workplace.
- Building instructional data systems
   that measure student success and inform
   teacher and principals how they can
   improve their practice in real time.
- Recruiting, developing, retaining, and rewarding effective teachers and principals.
- Turning around the lowest-achieving schools.

### More Education = More Opportunity

 Having a college degree means that children born into the middle three income quintiles are more than 75% more likely to advance to a higher income quintile as adults than those who do not get a college degree.

Probability that a child born into the 2<sup>nd</sup>, 3<sup>rd</sup>, or 4<sup>th</sup> income quintile moves to a different relative income position as an adult

Without College Degree

With College Degree
